Spanning Time & River **Ste. Genevieve - Modoc Ferry**

The **Ste. Genevieve - Modoc Ferry** is your bridge between the historic and scenic City of Sainte Genevieve in Missouri, and the Village of Modoc and all of beautiful Southern Illinois. Relax and let us do the driving while you save money and time. From Illinois, the shops, restaurants and history of French colonial Sainte Genevieve are only minutes away. For Missourians, the ferry offers a direct route to Fort de Chartres and other attractions in Illinois. The ferry also provides a direct route for area truckers, farmers and industries, and is the official crossing point for bicyclists enjoying the Great River Road or the Mississippi River Bicycle Trail.

The ferry operates year-round, except when river conditions make ferry operation unsafe. Daily operating information is available by calling the Great River Road Interpretive Center (573) 883-7097.
